

Smart Look. Smart Choice.

Color Done Right. The First Time.

At Wanda, we recognize that staying competitive in the automotive refinish business depends on a precise color system. Precisely why we've left no room for error in designing ColorPro, our advanced color retrieval system. With our global R&D support, extensive database, and comprehensive documentation, we're able to deliver quality and accuracy in color matching that's...well...unmatched. Let us show you the true colors of Wanda. You'll be truly satisfied, and so will your customers.

The Wanda Advantage includes:

- A complete palette of OEM colors
- Highly accurate, "right-the-first-time" color match & performance
- Color Pro, our advanced color retrieval that eliminates guesswork and simplifies formulation
- Easy-to-spray basecoat
- A compact, simple system, offering a wide range of applications to address your every need
